

CARTONING MACHINE WITH ALTERNATE MOTION
MOD. UM-CB500

TECHNICAL FEATURES

The cartoning machine with alternate model UM-CB500 has been designed for introducing aluminum foil , plastic film or paper rolls for household use into individual cartons.

The machine uses folded cartons pre-glued on the long side . Cartons with 3 or 4 flap closures can be accommodated as well as 5 flap closure cartons if specially for seen and equipped.

Also cartons provided with plastic ,cardboard or metal tear edge can be employed .

The machine can use different sizes . It is quite easy to change carton length , width and height.

A transport chain with stainless steel buckets feeds the rolls to packing station where they are introduced into the cartons.

The carton magazine contains up to approx. 350 cartons and easily accessible for the operator.

The carton flaps are sealed with hot melt glue injection .

The cartoning machine can be connected to one or two automatic rewinding machines.

- Carton sizes : LENGTH from 300 mm up to 500 mm
WIDTH : from 40 mm up to 60 mm
HEIGHT : from 40 mm up to 60 mm
- Installed power : Total 4 kW
- Compressed air consumption : 100 NL/min 0,6 – 0,8 MPa
- Output : max 40 pcs/min
- Dimension of machine : 4000 x 1620 x 1900 mm L X W X H
- Weight : 1.700 kg
