QSQ-1800 Bridge Block Cutting Machine It is designed as per the understanding of processing marble or granite block into slab and tiles.Strong motor power,heavy-duty steel body,and user-friendly operation system as well as easy-to-maintain of machine that is and ideal machine for choice.

MODEL NO.	Unit	QSQ-1800
Max.diameter of blade	mm	φ1800
Max. No. of blade	mm	1
Main Motor power	KW	75
Max. vertical stroke	mm	1350
Crossbeam size	mm	8000x580x700
Side beam length	mm	5000
Pillar diameter	mm	135
Max.cutting size	mm	4400x3000
Dimension(L*W*H)	mm	8000x4350x6700
Water consumption	m3/h	20
Approximate Weight	kg	11000
Overall Design		
		

Machine main configuration:

1. SIEMENS or indigenious main motor, 75KW.
2. PANASONIC PLC, PANASONIC converter, FUJI contactor
3. Encoder for X, Y, Z (left & right, up & down, and forward & backward) movement.
4. Crossbeam length 8meter, Side beam length 5meter
5. Equiped locking devices on side beams to avoid crossbeam shifting
6. Add cloth in front of water cover.
7. with pulley cover for better protection
8. Adopts reductor RV130 for feeding.
